

Jeffy's Muessings

I need to get this rag out yesterday. I like sleeping but I need to do the right thing, the Exchange thing and keep this paper going. We do have someone speaking to us at our **One Nation Under God** lunch on November 16th. The speaker is **Chaplin Hyder** from the Navy Division in Ft. Worth. I hope to have his bio by Monday or Tuesday. I talked with him last Thursday for about 20 minutes and he seems like a great gut. He wanted to know all about Exchange and what we do. I just had to tell him everything. I hope he stills wants to come in spite of me. Please tell all of your friends and other members to come on November 16th to hear **Chaplain Hyder**. I do not think you will be disappointed.

We had a super meeting October 26th. We had Dr Anderson come and tell us how yellow our teeth are. I do not need Dr. A to tell me how yeller my teepers are. They have a nice yellow glow about them. Any way David let us know ways to get them white or off white. One way was to use toothpaste from the store and strips. They get all 5 or 6 teeth 1-3 times whiter and cost up to \$200.00. That's pretty expensive toothpaste. There was another option with trays. No, not TV trays or ashtrays but teeth trays. You put some gunk in the trays and stick it in your mouth. It gets all your teeth not just the ones in front. Of course it could rot your gums, well not rot but it could bother your gums and David might have to help you with that. The tray program costs about \$\$3-600.00. Nice tray I must say. Your teeth will be up to 5-6 times whiter. Then there is the Cadillac cleaning or whitening. You go see Dr Anderson or another dentist and get the in-house treatment. POWER WHITENING. It's the best and safest. Your gums are protected and your teeth are 7-12 times whiter. Wow, I cannot even see you from the glow coming out of you mouth and it only cost you \$550-1700.00. You get to keep the tray too when you are done. You get what you pay for. David will match your teeth with the whites of your eyes. I told you the color of my teeth already and it matches my yellow eyes just fine, thank you very much. The best brush is Solicare and whitening toothpaste is abrasive on your teeth. Tommy just mentioned to "go at it real hard" and the stains would come off. I'm not sure about that Tommy. David also let us know that FAGD means Federal Academy of General Dentistry. I did not know that but I always am finding out how much I do not know. We need to get with David and change the molecular structure of our stained teeth. See I was writing down all this stuff. David thanks for coming and we always enjoy seeing you and thank you for your support for Exchange.

I have to tell you about a miracle yesterday. Bennie is my office neighbor. Bennie the barber (he cuts Will's hair) had a heart attack as he left his doctor's office on Monday. Barbers don't work on Mondays. He had it in the parking lot. The doctor or doctors tried to revive him for quite sometime but they had no success. The paramedics arrived and decided to try to shock him one more time. They got his heart started and got him to the hospital. As of today he is critical but stable. Oh I forgot to mention that when they got him to the hospital they had more complications with an artery. Bottom line is they had to shock him 28 times because his heart continued to stop. I saw Bennie yesterday (Tuesday, 11-1) and he squeezed my hand when I asked to do just that. He is responding but cannot talk with all the tubes and stuff. I was shaking and it was exciting. Give thanks to God...miracles happen every day. Some you see, some you don't. I will keep you posted how Bennie the Barber is doing. Sunday, 11-6 Update. I saw Benny the barber the other day. The last time I saw him he was just about dead. Saturday he was up in a chair having a nice dinner. God is Great!!

Well, I'm going to bed. I have slept through half of this article anyway. If I stay up any longer my nice yellow eyes will turn to a bright red. See you Wednesday

UNITY for Service.....Ding!!!!!!
